

Invited Seminars

1. Promoting Student Engagement through Interdisciplinary Endeavors
Seminar, De Paul University, Chicago, IL, January 2009
2. Engaging Students Through a Multidisciplinary Curriculum
Pedagogical Issues Seminar, University of Chicago, Chicago, IL, March 2008
3. Computational Modeling of Magnetic Clusters
Mathematical Sciences Seminar, Northeastern Illinois University, Chicago, IL, December 2005
4. First-principles investigations of the Structural and Electronic Properties of Metal Clusters
Seminar, Physics Department, Oakland University, Rochester, MI, April 2003
5. First-principles investigations of the Structural and Thermal Properties of Metal Clusters
Seminar, Physics Department, Jackson State University, Jackson, MS, May 2002
6. Theoretical Studies of Alkali and Noble Metal Clusters Seminar, Department of Electronics, Yamanashi University, Kofu, Yamanashi, Japan, April 2002
7. Theoretical Studies of Transition Metal Clusters and Cluster Molecule Systems.
Seminar, Materials Design by Computer Simulation Laboratory, Institute for Materials Research, Tohoku University, Sendai, Japan, April 2002
8. DFT Studies of Metal Clusters and Cluster Molecule Systems
Seminar, Cluster Research Laboratory, Toyota Technological Institute, East Tokyo Laboratory, Genesis Research Institute, Inc., Ichikawa, Chiba, Japan, April 2002
